Dear Ms. Levine,

The Michigan Coalition Against Homelessness (MCAH) represents more than 400 agencies across the state serving the 75,000 identified homeless individuals in Michigan. We would like to voice our support for the newly revised Qualified Allocation Plan (QAP) and we encourage the Board to approve the QAP *as is* at the November Board meeting. For 16 years, MCAH has worked to advance the efforts of service, housing, and shelter providers to the homeless. We continue to advocate for the resources necessary to provide housing and support to the growing and diverse population of vulnerable and homeless men, women, and children in Michigan. The QAP holds a great opportunity to direct significantly needed resources towards a population in crisis and create affordable housing for all people.

Sincerely,

Lynn Hendges
Project Manager
